## [New Book of Poems seems bound to be a Future Best Seller](#) - 10-04-2009

Welcome to the musings of Sterrett Watt. "Poetry From the Heart" -Unpretentious Notions of a Minimalistic Man by Sterrett "Skip" Watt may sound like a complicated mouthful, but it is really a beautiful book from cover to cover. Mr. Watt, or "Skip" to his friends and literary fans, has been writing literature, farm blogs and self-help tomes for years. But now Skip Watt has compiled an inexpensive book of some of the most thought provoking and insightful poems that has ever been written. Poetry about love, genealogy, boyhood, wilderness, family and friends, fantasy, patriotic, nature, and much, much more. One of the few things in life that has given Skip pleasure is to write that which is within his big ol' heart and the hearts of those around him. Compiled in this fascinating book are poems that are bound to be Inspirational, romantic, spiritual, ones of self discovery and others that are just plain insightful and fun. Mr. Watt's poetry shows us that every once in a while, we are fortunate enough to meet someone that touches our hearts and souls in such a way that they can never be forgotten. Experience a feeling that reaches beyond the boundaries of our comprehension. See a sight that fills our days to such degree that cannot be fully described with any amount of words. It brings the person to such depths of feeling, be it pain or joy, that you cannot doubt its reality. True Poetry is as unmistakable as the sun's rising or the moon's height in the sky. For it truly brings a magic that is beyond the realm of earth, farther than the stars, and as everlasting as the cosmos...such is the bond that transcends each life into the next. And now these things have been captured in an inexpensive book, filled with wonderful illustrations by Mr. Watt's wife Vicki, which is sweeping the entire nation.
